WOMEN’S RESOURCE AWARDS OF EXCELLENCE FOR DISTINGUISHED GRADUATE STUDENTS

The School would congratulates Kulsum Fatima, a SAPL PhD student and recipient of the Women’s Resource Awards of Excellence for Distinguished Graduate Students.

Prior to beginning her PhD, the major focus of her work was to find solutions to problems related to unclean water and water shortages within communities in India, specifically in regards to how these issues affect women.

Fatima has remained fierce in her dedication to changing patriarchal beliefs by making a more inclusive society for women in India.
COLLABORATIVE ECOLOGIES | OPENING NIGHT

Come and celebrate a legacy of design excellence on March 17 at the City Building Design Lab Gallery from 5:30 to 7:30 p.m., during the opening night of Collaborative Ecologies, a marc boutin architectural collaborative (MBAC) exhibition featuring two primary forms of dissemination, including a graphic repository of the cross-pollination of design research trajectories, collaborative networks, people and projects, and a series of physical models that are emblematic of the design acumen forged through this process.
