TOMORROW: YES SHOW 2023

There is still time to register for the 2023 YES celebrations. Tomorrow night’s event accompanies an extraordinary exhibition comprising plans, 3D models, and renderings that push the boundaries of imagination and design, showcasing everything from buildings that address social or economic inequity, and ideas of what an enticing and resilient future downtown Calgary needs to be, to what sustainable planning and landscapes can look like in the face of the current climate emergency. The show also serves as a network builder, offering an opportunity for industry, community and students to create connections, share ideas and build relationships.
